CTMD Touring Artists

CTMD Touring Artists celebrates diverse cultures from around the world while cultivating awareness for the traditional performing art forms found here in the United States. Representing a multitude of ensembles from various world cultures, CTMD Touring Artists brings to stages across the country a highly eclectic mix of electrifying traditional performing artists. From exhilarating African dance troupes and seductively rhythmic Latin dance bands to wildly virtuosic European folk ensembles and explosive Asian drummers, presenters are sure to find an ensemble that will entertain, engage and educate.
